[In A Hurry? Click Here To Buy Instant Pot Smart Pressure Cooker](#)

Instant pot smart is a revolutionary Smart pressure cooker that will make your cooking enjoyable, convenient, dependable and safe. It is called SMART because it is Bluetooth enabled allowing programming and monitoring from smartphones or tablets. It is a wifi pressure cooker!

Like the [Instant Pot IP DUO 7 in 1](#) and LUX model, this smart wifi pressure cooker speeds up cooking though using up to 70% less energy than other normal cooking appliances. It does not only use less energy it cooks food to perfection that is highly nutritious because it locks in the nutrients. The SMART capability allows you to program complex cooking steps in recipe scripts. To harness this technology you need wifi, smartphone or tablet then you can execute cooking tasks wirelessly.

Instant Pot Smart Pressure Cooker Features

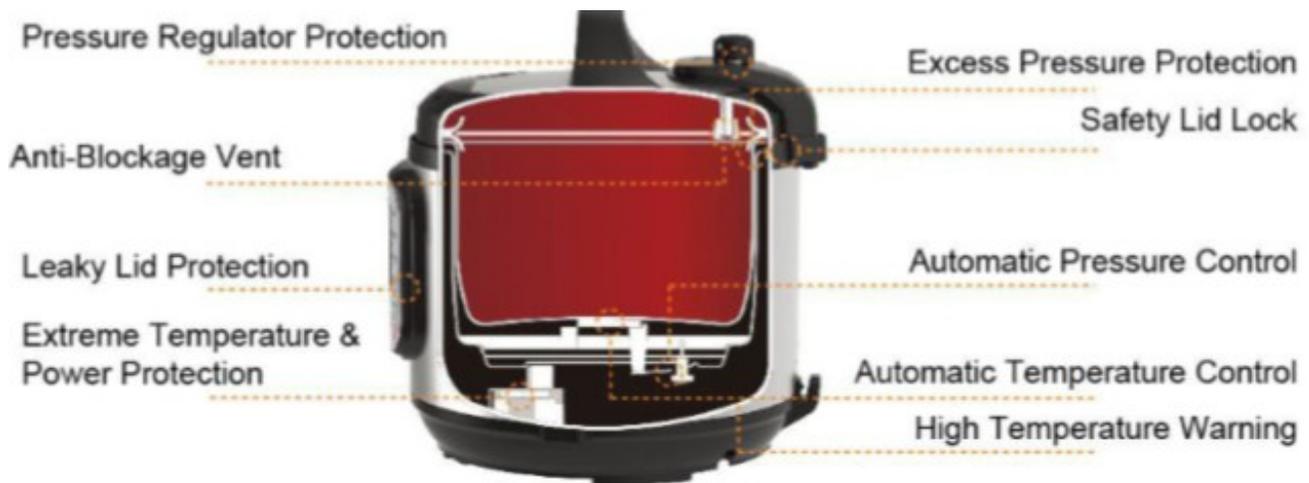

Bluetooth® Smart compliant (Bluetooth® 4.0) to connect to smartphones/tablets, providing easy to use interfaces to

control and monitor cooking progress in graphics. The cooker's functionalities can be upgraded and expanded after purchase. Cooking procedures can be written in recipe script and shared with friends. Here are some of the features

- **Multi-Functional Programmable Cooker:**
 - **Free iOS app with built-in recipes.**
 - Pressure cooker,
 - Slow cooker,
 - Rice Cooker,
 - Porridge Maker,
 - Steamer,
 - Sauté/Browning,
 - Yogurt Maker,
 - Warmer
- **10 Proven Safety Mechanisms, UL and ULC certified**

Instant Pot IP-Smart Comes With Safety Without Compromise – Instant Pot is carefully designed with all models passing stringent UL and ULC certifications, giving users uncompromised safety and peace of mind. Instant Pot protects users with the following 10 proven safety mechanisms:

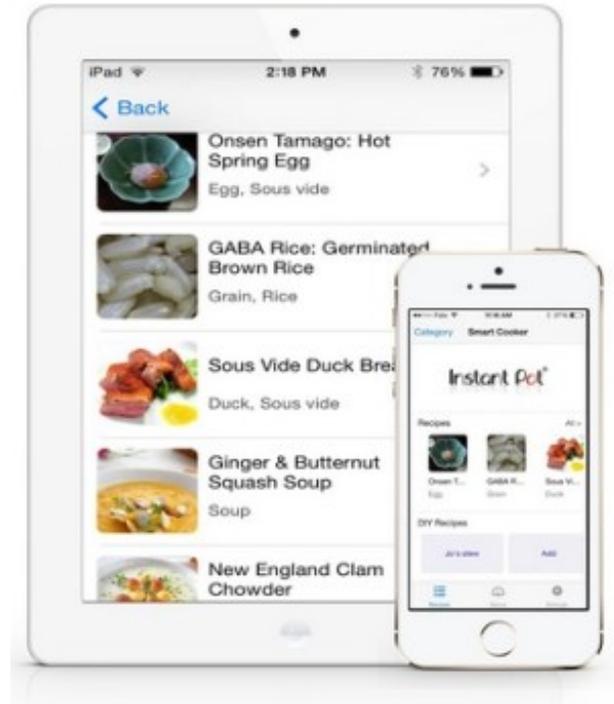

1. Safety Lid Lock prevents accidental opening while cooker is pressurized.
2. Pressure Regulator ensures working pressure is under the safety limit of 15.23 psi.
3. Leaky Lid Smart Detection (eg. steam release is at open position).
4. Anti-Blockage Vent prevents food debris from blocking the vent.
5. Magnetic Sensor for Lid Position Detection monitors whether the lid is in an unsafe zone for pressure cooking.
6. Automatic Pressure Control keeps pressure in a safe range.
7. Excess Pressure Protection releases excess pressure into internal chamber in the event of a dangerous situation.

8. Automatic Temperature Control regulates temperatures based on the type of program selected.
9. High Temperature Monitoring prevents food from burning.
10. Fuse Cuts Off Power when electrical current or temperature exceeds safety limits.

Instant Pot Smart Pressure Cooker Benefits

This **SMART pressure cooker's** capability functionality can be upgraded and expanded after purchase, and the recipe scripts can be shared with friends. Your favorite dishes are within the reach of pressing a button. Green peas, sweet corn and baby carrots can be steamed in 2 to 3 minutes, fresh or frozen, you name it, it is all in there. Possibilities are limitless when it comes to cooking with this unit. Read here to compare it with [Instant Pot LUX!](#)

To make mashed potato, don't boil potatoes in water for 50 minutes leaching nutrients into the water; steam them in instant pot for just 15 minutes. An entree of chili or Irish stew can be done within an hour, without you watching over it. If you want to try the Japanese Onsen Tamago (hot spring egg), there's recipe script in the free app.

The free app also has recipe script to turn instant pot smart into a hot pot cooker. Tailored for varying tastes and food conditions, the programs come with 3 adjustable modes. Special features include 3 temperatures in Saute for browning, simmering or thickening, and 3 temperatures in slow cook to complete the tasks of a common slow cooker. Most traditional, modern and international recipes can be easily adapted for instant pot.

Instant Pot Smart Recipe Scripts

How to Write Recipe Scripts for Your Instant Pot Smart

The Instant Pot Smart comes with an innovative capability which enables recipe scripts to be written on a smartphone or tablet, and then uploaded to the cooker to be executed via the Bluetooth connection. A recipe script consists of commands executed in sequence. This guide is about how to write the recipe scripts on the Instant Pot Smart Cooker app. Also see [Instant Pot Sous Vide Cooker](#).

- 1. Start writing a recipe script by following 4 easy steps;
 1. a. Tap the Add button to start,
 2. b. Tap the “+” to add a cooking task,
 3. c. Select a command as the first cooking task,
 4. d. Configure the task using parameters of time, temperature, heating level. You can optionally add a message to be displayed, a sound when the task starts and the LED light to turn on. Tap “Done” when finished

Those are the 4 easy steps to follow when writing an Instant Pot Smart Recipe Script.

- 2. Save your recipe script
- 3. Share your recipe script if you wish to

With these 3 easy steps to follow, you can have your recipe script in your Instant Pot Smart Pressure Cooker

Instant Pot Smart Price

The instant Pot Smart pressure cooker is pricier than the Instant Pot DUO or LUX. This is probably because being an upgrade of the IP-DUO it has a lot more features. [Click here for the price of the Instant Pot IP-Smart](#).

Instant Pot Smart Sale

The Instant Pot IP-SMART is on sale and may be available in retail stores in your local area. However, there has been a challenge of out stock because this pressure cooker is flying off the shelves. It is also on sale online from Amazon, Walmart, Target, Kohl’s and the Instant Pot official website. When you buy Instant Pot Smart, we advocate to buy from Amazon because you also have the option to extend the warranty period.

Instant Pot Smart Deals

Did you know that you can get bargain deals from Amazon by visiting the Amazon Warehouse Deals and save. At the Amazon Warehouse Deals you can get Instant Pot Smart at bargain prices. These are normally low priced because they may be opened, pre-owned, or slightly damaged. The Instant Pot IP-Smart Bluetooth-Enabled Multifunctional pressure cooker purchased through the Amazon Warehouse Deals is still eligible for Amazon's 30-day returns policy and Prime or FREE Shipping.

Instant Pot Smart Cooker Review

These are reviews from Amazon to give the insight and the type of reviews you can get from Amazon. They are more genuine because they come from real buyers and users of the unit, unlike some fabricated ones to improve sales. Amazon displays both negative (critical) and positive reviews for a fair judgement of the product. Read along and head over to Amazon for more...

Highest Quality, More than I expected – *Very High Quality, the stainless steel cooking pot is very heavy gauge, highly polished, controls simple to use, instruction books and recipe books easy to understand. I love my Instant Pot and I'm a Chef. I use it at home and in my RV. A bit tricky to set up the phone controls but after I read the instructions three times, it was just step-by-step. Rice and soup are the easiest. Wonderful! Will be getting more Instant Pot cookbooks.*

Excellent pot – *I was always afraid of pressure cookers. If you are, don't be. I love how this works and cooks. Works well with my iphone. Well worth the money*

Best purchase I have ever made from Amazon – *I am pleased with the ease of cooking meals with the IP. We've had this two weeks and have made salsa pulled chicken for tacos, Teriyaki meatballs, baby back ribs, red lentil chili, and lemon chicken. The ribs were "meat ... fall of the bone" restaurant quality and very easy to make. I have had no issues with Bluetooth connection but the recipe portion of the app seems a little lacking. Admittedly I am still learning and I will eventually script new recipes.*

For the \$80 difference you really appreciate the value of the regular IP60. I'm not sure if the Smart is overpriced or the regular is under but the price gap is significant and with differing circumstances I would have to recommend the regular model. Having mobility concerns from recent hip and knee replacements I opted for the Smart model. Being able to control the app and follow the cooking progress from my iPhone in the comfort of our nearby living room is important right now. Overall quite satisfied.

Lid melts!! Be CAREFUL!! – *Love the functionality of this unit- my purchase decision was made to eliminate kitchen gadgets having only 1 function, and this did that! HOWEVER, I am very disappointed in the material construction. Just the second day using the instant pot I was cooking in my small kitchen and began smelling burning plastic. I placed the lid on a burner adjacent to a burner I was cooking with and the lid was melting from the heat of the nearby burner! I was furious. A replacement costs nearly 1/3 the price of a new unit. I really feel the material of the lid needs to be changed, or customer service to have a warranty to include this type of casualty. A sad, sad day for my instant pot.*

This Instant Pot is not smart!! – *I like the cooking capabilities and the features—all except the bluetooth IP-Smart aspect. I have written the company twice stating that the connection to the app on my phone drops within seconds*

after it is established. I paid nearly \$80 extra for this feature. I will be returning it to receive the version without the "smart" feature if I do not hear from them ASAP.

Really want this IP Instant Pot Pressure Cooker to work *without getting an Overheat Message and burning my meals. The Overheat function prevents the pressure cooker from pressurizing. This is my replacement unit that was having the same Overheat issues, it has ruined 3 meals now.. Has anyone else had this problem too? I have owned other electric pressure cookers and never has this problem;-) I also emailed the issue to the seller to help and never received any feedback*

[Go to top](#)

The Verdict About This Unit

Overall this unit is worth buying in your kitchen. For its price you will be replacing 7 different appliances saving you money and kitchen storage space. Not only that a lot of reviews mention how well it works as an energy saver and its expand-ability to add more recipe scripts. It cooks well every time if not most of the time. Despite some critical and somewhat negative reviews, nothing can be 100% satisfactory. There is always room for improvement as in the areas of SMART connectivity to several different devices, melting material, customer service, etc.

So all in all the Instant Pot IP-Smart Bluetooth-Enabled Multifunctional Pressure Cooker would be a good buy.
